As It Would Cut off a Convenient Means of Communication With the German Armies In Poland-Battles In Poland at Lodz and Lowicz When They Come Will Undoubtedly Be the Most Decisive of the War -Servians Expect a Russian Army Soon Under the Walls of Budapest.

London, Dec. 2 .- Heavy fighting has been resumed in the region of the Argonne forest, toward the eastern end of the battle line in France and although today's French and German official communications disagree as to the outcome it was apparent that the conflict is marked with considerable violence. The German emperor's own regiment was selected to make an assault on a strong French position which the Berlin statement says was won. The French statement in referring to what apparently was the same engagemennt, says that the German attack was repulsed and that progress was made by the allied people.

In Belgium infantry fighting has been resumed, although it is not clear whether the Germans have begun another general movement. The French war office reports that German attacks on entreachments were beaten back, and that the Germans suffered heavily in the artiflety

At other points in the line fighting has become more spirited than bad been the case for some time. It is stated in Berlin that in the fighting in Russian Poland between November 11 and December 1, eighty thousand Russians were captured unwounded.

The situation in Servia is reported at Sofia, Balgaria, to be a critical one for the home army which is seeking to check the forward movement of Austria's invading forces. The Servians have been forced to fall back behind strong natural positions and are now acting entirely

All arrangements were completed for the season's series of dances, the first of which will occur this evening at Assembly hall, a turkey supper to be served in the balcony. The next dance will occur on New Year's eve and will be made a special affair. These dances will undoubtedly prove quite popular and will be well attended. How to Neutralize Dangerous Acid Stomachs

Pew people besides physicians realize he importance of keeping the food entents of the stomach free from redd termentation. Healthy, normal disestion cannot take place while the dicate lining of the stomach is beside inflamed and distended by acid and wind—the result of fermenting food in the stomach. To secure perfect digestion, fermentation must be stopped or prevented and the acid realized. For this purpose, physicians recommend getting a little historical magnesia from the druggist and taking a teaspoonful in a little hot or cold water immediately after eating. They recommend bisurated magnesia heause it is pleasant to take, has no disagreeable after-effects and instantify stops fermentation, neutralizes the acid and makes the sour acid, bland, sweet and easily digested.

The regular use of bisurated magnesia is successed of historical and prevents that acid condition which alone is the cause of troubite.

INVESTING

Is a business by itself, requiring longtraining, special facilities and a wide knowledge of the legal technicalities surrounding all kinds of investments.

No matter how good an investment may look to you, it is well to go slow unless you are a trained investor.

We have been in the business of investing money for 31 years. While we still have much to learn, it is more than likely that we can be of distinct service to the average man,

Our advice on the investment of money is always sincere, as far as we know how to be and is always on the side of safety.

FREE PANTS SALE

For the first ten days after our opening we will give with every suit, overcoat or coat and pants order one pair of \$5 pants free. This free offer is made at this season of the year that we may better introduce our product to the citizens of Newark and surrounding territory

By taking advantage of this offer we will guarantee to save you \$8 to \$10 on your winter suit or overcoat and prove to you we are professionals in the tailoring business and stand today without a plea insofar as values are concerned.

Every garment we make is of pure wool and cold water shrunk; being tailored by the best Union Tailors possible to obtain. Union label in every garment. Our employes adhere strictly to the Union scale, working 8 hours for a day. We have no Fake Union. Our employes pay their own Union dues.

Don't get confused in names as there are some tailoring concerns trading under old trade marks which are very similar to ours and which were confiscated years ago and even then in large cities were very common. These unscrupulous establishments should be likened to the highwayman or corfidence man who confiscates your purse and gives no value in return.

We are the original NATIONAL WOOLEN MILLS, having a great number of stores throughout West Virginia, Ohio, Maryland, Pennsylvania and Indiana, owned and controlled by three blue blooded Americans, Geo, W. Strong, Jas. A. Bryan and Clyde C. Boso. We own and control all of our trade marks which are original. This being more than our noisy would-be competitor can truthfully say.

Our Newark store will be under the management of Mr. S. D. Thompson whom we can highly recommend to you as a gentleman in every respect and an expert designer and cutter, being a graduate of the American Gentleman and Mitchell's cutting schools of New York City.
